

Step 1 — Download OpenVPN Connect

Windows (MSI)	https://openvpn.net/downloads/openvpn-connect-v3-windows.msi
macOS	https://openvpn.net/client/client-connect-vpn-for-mac-os/
iOS / Android	Search "OpenVPN Connect" in App Store or Google Play

Step 2 — Receive Your VPN Credentials from ATS

Save the .ovpn file to your Desktop. Do not share these credentials.

Step 3 — Import Your Profile & Connect

Step 4 — Verify Access

Disconnect when finished — the VPN is not needed on the local CAVO network.
