

Step 1 — Download WireGuard

Windows	https://download.wireguard.com/windows-client/wireguard-installer.exe
macOS	https://apps.apple.com/us/app/wireguard/id1451685025
iOS	Search "WireGuard" in the App Store
Android	Search "WireGuard" in Google Play

Step 2 — Receive Your VPN Configuration from ATS

Save the .conf file somewhere accessible. Do not share it — it is unique to you.

Step 3 — Import Your Config & Connect

Step 4 — Verify Access

Deactivate the tunnel when finished — it is not needed on the local Ambit network.
